

4/30/11 Council Meeting

Agenda:

- Job Jots
- Filling Adult Position
- Hawaiians at WUUKY
- LDC Recap
- Application of New Drug Policy
- Planning Trainings

Job Jots

- DA-Abbie, Alexa and Mia are doing con workshop
 - Touch groups at DA
 - Victor Lane is leading staff
 - Emily is worship co
- WUUKY deans to figure out how to involve Hawaiians
- Mia and Abby create touch group guide
- Emily send message to Bryant

Touch group

Mia & Abbie are willing to create a touch group guide, which would help new touch group leaders figure out what they are supposed to do. In general we should try to have the co touch group leaders consist of someone who has led before and someone who hasn't. Ask Meg to try to have the people who have co led before to fill the solo positions.

Filling Adult Position

Since council has an outgoing adult, we need to find a new adult to fill the position. At the next con, council members should be actively searching for possible candidates. The most important factor however, is finding an adult that everyone is comfortable with.

Hawaiians at WUUKY

We would love to encourage Hawaiians to come to WUUKY this summer. The WUUKY deans should figure out how to involve Hawaiians while simultaneously being aware of how much money we can spend.

LDC report

The LDC (Leadership Development Ca-training) was small but the results were great. Overall, we made about 150\$. It was recommended that trainings should happen more often, and should be geared towards the younger leaders so that they can develop skills that would later have a positive impact on the community. At the LDC most of the people who attended already had leadership skills, and the training simply enforced

them. We could possibly train MUUGS kids at MiSC. Preferably we would like to have the trainers be above 18, but everyone under 18 who wishes to help train the MiSC must have parents consent.

Closed Session

Application of new drug policy

Councils new drug policy states that drugs are forbidden due to applicable laws. However, in special circumstances, such as when drugs are needed for medicinal reasons, council strongly enforces a blanket rule which analyzes a situation on a case-by-case basis. Anyone taking pills for medical purposes has a legitimate reason to be allowed their medications at CONs. Chaplains should have a basic awareness of people on medication. If meds were necessary during the day, the Chaplain room would be available.

Proposal:

Council empowers Emily to write up our decision explaining why this is a prevalent issue and give it to Bryant to present to the board. Absolutely no smoking will be tolerated at CONs. In the interest of letting everyone go to CONs, this is a trial basis, and the person in question will be under constant close council supervision. We will instate a blanket rule stating that if you need drugs for medical reasons, it should be analyzed on a case-by-case basis.

Consensus reached.

Training Planning

Since the Leadership Development training went really well, it was proposed that trainings happen more often. Having trainings regularly/ semi regularly shouldn't be too difficult financially and we have 6 different topics we could train on. Trainings are an opportunity to reach out to the community more and integrate people who need training or younger youth that would be running the community in a few years. CoCoCo's will delegate trainings and decide when a training is needed and in which aspects of the community we could strengthen. A training is different from a regular CON since it's a working CON but they are still fun and important.
